A TIMELY SUGGESTION.-We call especial attention to the communication in this issue in which the attention of the Board of Equalization, is specially directed to the inequality existing between the assessment of property, both real and personal in this county, compared with that of other counties in the State. As the Legislature has failed to give us the remedy, the only course left is for the county board to reduce the assessment as suggested in the communication. Under the assessment heretofore our county has been compelled to contribute thousands of dollars tax to the

State owing to the fact that property has been over value by the county Board of Equalization when compared with the assessments in other counties. This subject so fully discussed liberate consideration of our Board,

MERRY WEDDING BELLS.

Messrs. Editors: Several gentlemen were seen to board the south-bound ticipations of no usual occurrence, and them in no small degree. This was shown by their departing upon the freight train, instead of waiting for the regular passenger train which arrives here about four o'clock, p. m. This was done under apprehension that the passenger train might not make connection with the Charleston roads and to render themselves certain of the connection, they bethought themselves to make "assurance doubly sure" by anticipating the arrival in Columbia of the passenger some time. Arrived in Columbia they discovered that the groom expectant, accompanied by Mr. Q. D. Mr. J. O. Boag-Dear Sir: I bought the first Davis Machine sold by you over five years ago for my wife, who has given it a long and fair trial. I am well pleased with it. It never gives any trouble, and is as good as when first bought.

Winasboro, S. C., April, 1883.

Mr. Boag: You wish to know what I have to say in regard to the Davis Machine bought Be more fashionably dressed than in one of my Four-Buttoned Cutaway Cork-Screw of you three years ago. I feel I can tsay toe much in its favor. I made about \$80 Suits. Not only is the style the most pop-ular for street and business wear, but the within five months, at timer ranning it so fast that the needle would get perfectly hot from friction. I feel confident I could not have done the same work with as much ease salso well with any other machine. No time was lost in adjusting attachments. The lightest running machine I have ever "eadled. Brother James and William's ramilies are as much pleased with their Davis Machines bought of you. I want no better machine. As I said before, I don's think too much can be said for the Davis Machine.

> Respectfully, FLIAN STEVENSON.
